

Löwenstein SOMNObalance

Effective. Reliable. Unparalleled Silence.

German-Made Device

Introducing the SOMNObalance e APAP/CPAP Treatment device from the trusted SOMNO range by Löwenstein.

These are made in Germany and offer **superior quality & durability**, in a simple but very functional device.

Featuring adjustable humidification settings, **SoftPAP, SoftStart, Auto Start/Stop** & effective treatment algorithms to optimise your night's sleep.

The SOMNObalance e Device Package comes complete with:

- Device
- Humidifier tub
- Carry Bag
- Power supply
- User guide
- Breathing tube
- SD Card

5-Year Replacement Warranty

The device itself comes with a 5-year full replacement warranty for manufacturing defects.* Unlike repair warranty where you have to send the device away & wait, if your device is faulty, you receive a brand new replacement device on the spot.

No waiting, & no fuss!

*Assessment criteria applies.

The heating rod is a unique cylindrical element. It screws firmly into place on the side of the humidifier tub & is highly efficient, strong & built to last. It is not susceptible to mineral build-up or damage over time like some heating plates are. It also has sensors to turn off, rather than overheat if the water levels drops too low.

German manufacturing is known for precision, accuracy & quality. Löwenstein prides itself on wholly & exclusively assembling product in Germany, with minimal reliance on outsourcing components from other nations. More than 99.5% of Löwenstein SOMNO devices do not fail in the first 3 years of use.

FITTED COVER

TUB FITS PERFECTLY
WITHIN THE DEVICE
FOOT PRINT

The 300mL humidifier tub neatly & precisely slides on to the top of the device, integrating seamlessly into the design.

With or without the humidifier, this machine is extraordinarily quiet - **test & see!**

Pleasant & Effective Treatment!

The device algorithm responds to events by automatically providing **continuous pressure adjustments** tailored exactly to your needs.

The SOMNObalance e device uniquely features:

- Patented OPP technology which distinguishes central from obstructive respiratory events.
- An option for the clinician to adjust rate of pressure change, which allows for more gentle or aggressive treatment to best suit your body & comfort.
- Unparalleled silence - **this device is whisper quiet.**

The SOMNObalance e ensures a restful, uninterrupted sleep. The result is less arousals, less tossing, less hours in bed, with a carry over to greater energy in your work, health & hobbies!
