

# Löwenstein Prisma 20A

Welcome to the Comfort Zone.

# German-Made Device

Introducing the Prisma20A, APAP/CPAP Treatment device from the premium Prisma range by Löwenstein.

These are made in Germany & offer **superior quality**, durability, & leading-edge functionality.

Featuring comprehensive settings, touch screen technology, & **superior treatment algorithms\***.

\*This applies to the Auto devices.

The Prisma Device Package comes complete with:

- Device
- Humidifier tub
- Premium Carry Bag
- Power supply
- User guide
- Heating breathing tube
- 2 Replacement Filters
- SD Card

# 5-Year Replacement Warranty

The device itself comes with a 5-year full replacement warranty for manufacturing defects.\* Unlike repair warranty where you have to send the device away & wait, if your device is faulty, you receive a brand new replacement device on the spot.

**No waiting, & no fuss!**

\*Assessment criteria applies.

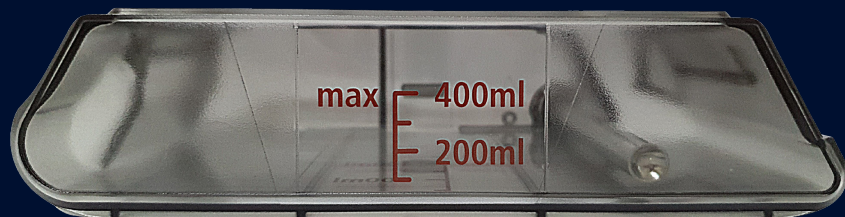

The 4-component modular humidifier is easy to fill, disassemble, & clean.

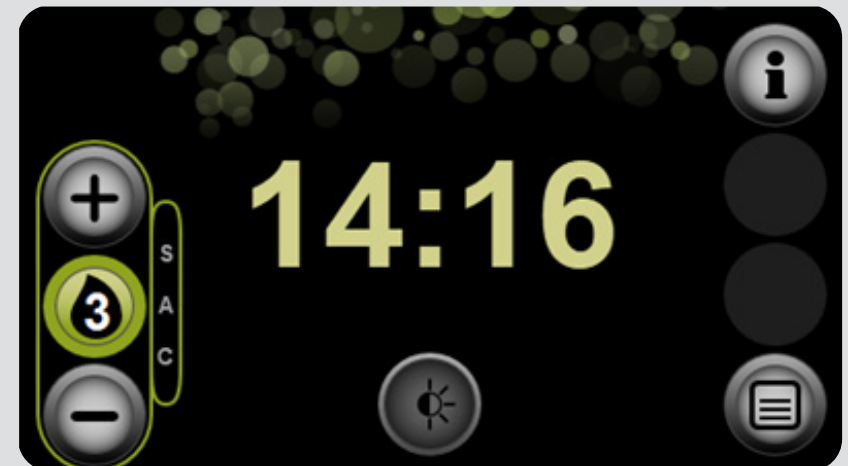

The unique cylindrical heating element is a particularly strong component, built to last. It is not susceptible to mineral build-up or damage like some heating plates are, it also has sensors to turn off rather than overheat if the water level ever drops too low.

## SAC (Smart Aqua Control)

Preheat function is activated via pressing the humidifier symbol once, prior to commencement of therapy.

The tub size of 400mL is the largest currently available & mitigates the need to refill during the night.

# Best Treatment Outcomes!

The device algorithm responds to events by automatically providing **continuous pressure adjustments** tailored exactly to your needs.

Based on feedback from experts & experienced CPAP users, you can expect the following benefits when using the Prisma device:

- Treatment is provided at efficient pressure levels which puts less strain on your lungs, allowing for more comfortable & natural breathing patterns.
- There is minimal disruption as **the device is whisper quiet.**
- This results in better sleep quality which means less required sleep hours & greater energy, ultimately leading to improved productivity in your work, hobbies & livelihood!
