

# Löwenstein Prisma SMART/ SOFT

Welcome to the Comfort Zone.

# German-Made Device

Prisma SMART/SOFT continues the tradition of high-quality APAP/CPAP devices from Löwenstein Medical & offers the new option of classic or dynamic pressure regulation for personalised respiratory therapy.\*

The familiar pressure relief “softPAP” can be activated at any time. Classic, simple user navigation with easy-to-read display & state-of-the-art technology incorporating FOT technology.

\*This applies to the Auto devices.

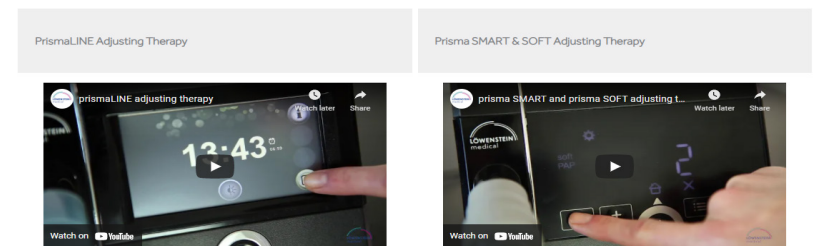

## The Prisma SMART/SOFT Therapy Set comes complete with:

- Device
- Humidifier tub (optional) & cover plate
- Carry Bag
- Power Supply
- User guide
- Breathing tube
- Heated breathing tube (optional)
- x2 replacement filters
- SD Card

## How can I find out more?

For visual content on how to set up the PrismaLINE & use the humidifier PrismaAQUA, scan the QR code or visit <https://www.sante-group.com/sleep-device-video-library> for videos:

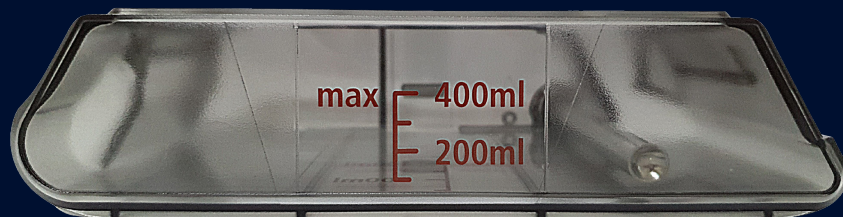

# 5-Year Warranty

The device itself comes with a 5-year warranty for manufacturing defects.\* German-engineered & manufactured under stringent quality control, the chances are very low of the device breaking down.

No fuss warranty for peace of mind!

\*Assessment criteria applies.

The tub size of 400mL is the largest currently available & mitigates the need to refill during the night.

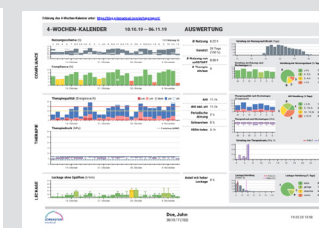

The 4-component modular humidifier is easy to fill, disassemble, & clean.

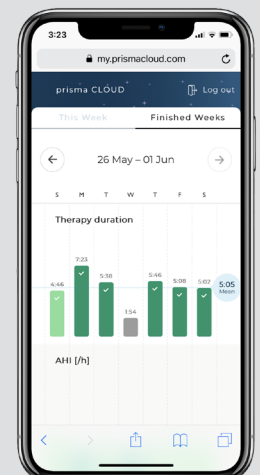

The unique cylindrical heating element is a particularly strong component, built to last. It is not susceptible to mineral build-up or damage like some heating plates are, it also has sensors to turn off rather than overheat if the water level ever drops too low.

Prisma SMART/SOFT max device option with built-in connectivity

Left & Above: Therapy calendar, reports & remote setting adjustments are possible for the clinician.

Right: Provides access to key statistics for the empowered patient. Includes Compliance, AHI, Leakage, Deep-Sleep Index.

# Best Treatment Outcomes!

The auto algorithm responds to events by automatically providing continuous pressure adjustments tailored exactly to your needs.

Based on feedback from experts & experienced PAP users, you can expect the following benefits when using Prisma devices:

- Auto treatment pressures are particularly efficient without unnecessary fluctuation. This puts less strain on lungs, allowing for more comfortable & natural breathing patterns & less leakage.
- There is minimal disruption as **the device is whisper quiet.**
- Users report a noticeably recuperative treatment outcome, i.e. more quality sleep, greater energy & even less required sleep hours. This ultimately leads to improved productivity in work, hobbies & livelihood!
